

MEET OUR EXPERTS

INTRODUCING THE HEALTHY SAIL PANEL

At Royal Caribbean®, the safety and well-being of our guests and crew, and the communities we visit is our top priority. So we're excited to announce the establishment of Royal Caribbean Group's Healthy Sail Panel — a team of the best minds and leaders in public health, bio security, epidemiology, hospitality and maritime operations. As we prepare to set sail once again, this diverse team has been enlisted to develop recommendations and guide our way forward with unprecedented standards in response to COVID-19.

Their combined expertise will help us reinforce our current safety procedures onboard our ships, and create new ones across the entire cruise experience.

Our collective efforts will be shared across the cruise industry, as well as other industries that may benefit from our findings — because we're all in this together.
